We brought Light and Digital solutions
in 10 clinics in 9 schools

TUMIQUI Smart Kit

TUMIQUI Power Digital solution

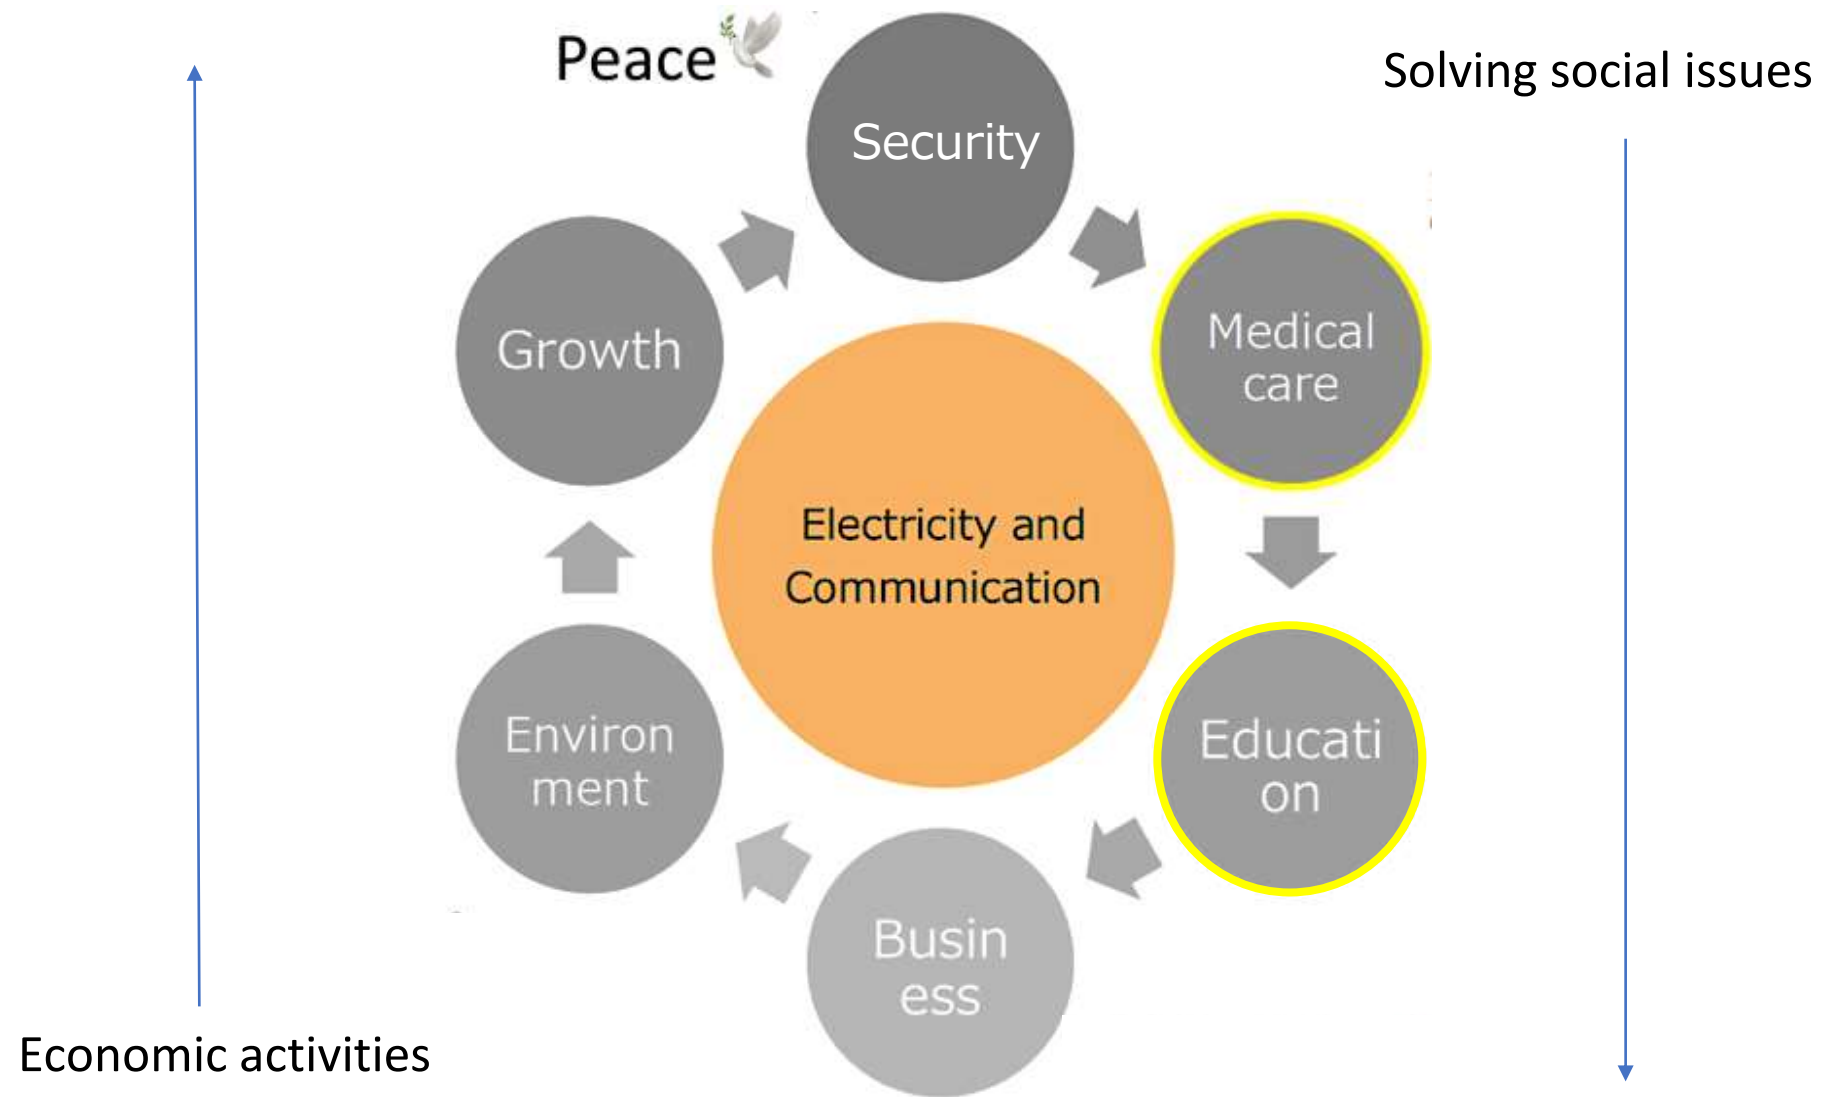

To Save Life!

To support E-Education

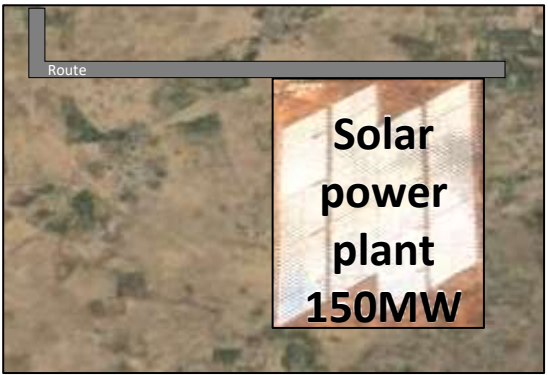

We have realized "Made in Africa with Japan"

This cycle is essential for both economic development and solving social problems.

First Stage 2025-

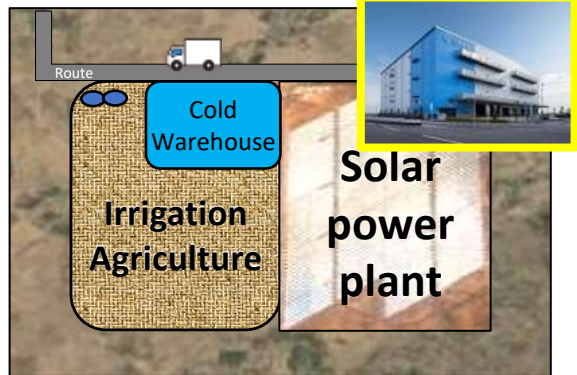

Solar power Plant

Second Stage 2028-

Integrate multi sectors for Local City Development

- Cold Warehouse
- Humain Capital
- Agropole
- Solar power Plant

Third Stage 2030 -

Economic Growth of Africa

Chemical free battery Innovation challenge !!

Innovations for Africa

E-Cold chaine, Green H2, SAF

- Cold Warehouse
- Humain Capital
- Agropole
- Solar power Plant

We aim at Crafting a Greener Tomorrow for Africa and the World.
 Seeking Partnerships and Investments for Sustainable Impact.

The investment in this planned solar project **alone** is expected to be 150M Euros, with an IRR of around 8-15% and a 20-year power sales plan.
